

## 2020 Updated Sanitation Procedures.

- \* Appointments are staggered to prevent guest checking in/out at the same time
- \* All staff must wash their hand before and after each treatment
- \* Gloves are worn for all nail-care and skin-care treatments
- \* Customer may request gloves to be used during massage/body treatment
- \* Therapist may wear gloves/mask during treatment without customers request
- \* All treatment rooms sanitized/disinfected after each guest with hospital grade disinfectants
- \* 15-30 transition period between clients to clean/sanitize rooms
- \* All implements sterilized after each guest
- \* All nail files & disposable nail care products are given to customer after service or disposed
- \* Hospital grade disinfects used to clean all treatment rooms and surfaces.
